South Bend 24, Indiana

Issued for Information of Producers  
Who Are Not Members of Cooperative Associations

Vol. V, No. 12

December 1961

NOVEMBER UNIFORM PRICE \$4.22

Dairy farmers will receive a uniform price of \$4.22 for November 1961 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.3 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge.

PRODUCER RECEIPTS

There was a small decrease in producer receipts on a daily basis from the October delivery period. Production in November is usually lowest for the year; however, we cannot compare it with previous years because some of our past handlers are now regulated by other markets. Daily herd production dropped 16 pounds per producer from October, but is 41 pounds per producer higher than it was a year ago. Utilization of producer receipts in Class I was higher than in October, but lacked almost 3 percent of comparing with utilization of a year ago.

CLASS I SALES

Class I sales are up 1.6 percent over October, but when we compare the same two months of 1960, we find that last year, sales were down in November from October by 4.7 percent. This would indicate that the sales of Class I products might be a little stronger this year than it has in the past. A comparison of the size of containers that fluid whole milk is sold in, with the May delivery period of 1961 shows almost identical percentages.

May 1961	Gallons	47.8%	½ Gallons	37.2%	Quarts	8.5%	Other	6.5%
November 1961	Gallons	47.3%	½ Gallons	37.3%	Quarts	8.4%	Other	7.0%

CHANGE OF ORDER NUMBERS

The Division of the Federal Register is renumbering all Federal Milk Orders to become effective January 1, 1962. The change in order number will in no way affect the terms and provisions of the orders or their application. Some of the nearby marketing order numbers will be, as follows:

Chicago	#30	Toledo	#41
South Bend-LaPorte-Elkhart	#31	Southern Michigan Detroit	#40
Fort Wayne	#47	Ohio Valley Evansville	#46
Indianapolis	#49	North Central Ohio	#37
Northeastern Ohio Cleveland	#36	Milwaukee	#39

CLASS I PRICE

The Class I price for the December 1961 delivery period will be \$4.29 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.10 per hundredweight to the average condensery pay price (\$3.21) and subtracting the 2 cent supply-demand adjustment. The supply-demand adjustment for the January 1962 delivery period will be a minus 12 cents.
